| | | | | | | | | |

Continuation of 11. does NOT place the application in condition for allowance because: The applicant argues that Das provisional does not teach "foreign agent operable ... to register for a multicast group identified by the multicast address". Das provisional teaches a foreign agent operable with a multicast group identified by the multicast address (page 8 first column line 8-16). Therefore, the foreign agent must register for a multicast group identified by the multicast address, otherwise it can not forward multicast packets.
